Course Name: Mobile Computing

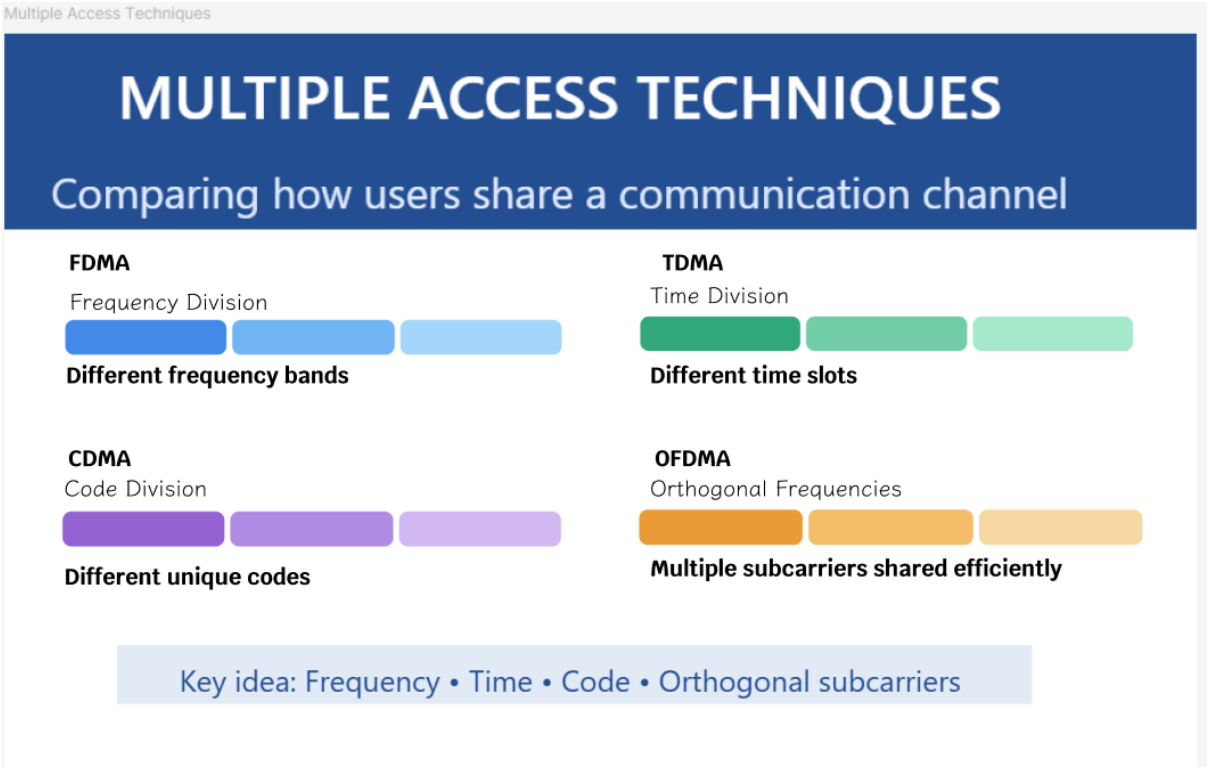

Experiment 10: GSM Service UI Prototype using Figma

Aim: To create a visual representation comparing different multiple access techniques using Figma.

Procedure:

1. Open Figma and create a new design file.
2. Create a suitable frame and add the title “Multiple Access Techniques”.
3. Create colored sections for FDMA, TDMA, CDMA, and OFDMA.
4. Use simple diagrams to illustrate how each technique shares communication resources.
5. Add brief descriptions of each technique.
6. Use different colors to distinguish frequency bands, time slots, codes, and subcarriers.
7. Arrange the sections neatly and add suitable icons.
8. Review and save or export the design.

Output:

Result: The visual representation of various multiple access techniques was successfully created using Figma.
